For a healthy and pleasant smoke, try Blackwell's Durham Cigarettes. They are pure, contain no drugs, and are covered with the genuine imported ricepaper. Ask your dealer for them. See that each package bears the trademark of the BULL and take no other.

## Proof of the Pudding.

The proof of the assertion that Blackwell's Durham Cigarettes are the best and purest made is found in the enormous demand for them. If you haven't tried them make the trial now, and judge for yourself whether it isn't to your interest to smoke them.

The Cons Millar, Captain Chas, B. Russell on the roof, is the United States mail packet this evening, at 5 o'clock, for all points on the Ohio river as far as Cincinnati. James vors presides in her office, assisted by The Josie Harry, Captain Milt R. Harry,

will be found in port to-day, and leave again to-morrow evening for all points on White river, going through to Jacksonport, making connections for upper White and Black rivers. J. C. Wyckoff and Peter Miller are GENERAL NEWS. Business fair yesterday.

The April shower yesterday morning was The E. W. Cole, Captain William Ashford, reported laid up at New Orleans. Receipts by river yesterday, 92 bales coton, 2 bags seed cotton, and 50 sacks cotton

The sandbar on the point opposite Fortickering is showing up, while the water till covers the point. The Cons Millar arrived from Cincinns esterday afternoon with 400 tons freigh-he returns this evening. The Coahoms, out for Friars Point yester-day, had a splendid trip of freight, as did also the Dean Adams, for Arkansas City. Signal Service report: River 32 feet 11 nches-decline of 2 inches during the 24 hours ending 1.08 p.m. yesterday, making eet 1 inch below the highest point reached The W. P. Halliday, four and a half days out from New Orleans, passed up for St. Louis yesterday morning with 800 tons of reight, discharging here a small lot freight. The Sic. Genevieve, in from St. Louis yesterday morning, had 4824 packages of freight for Memphis, and returned yesterday evening with 300 bales eastern-bound cotton. The C. B. Reese, which went down as far as Luna Landing distributing government rations, returned yesterday. She laid here last night, and will return to St. Louis this

The towboat John A. Wood, with a string of empties, arrived from New Orleans yester-day morning and stopped on the opposite shore cleaning boilers. She had not moved at dark last night. The towboat W. W. O'Neal, with a tow of

empty barges, is reported lying at the bank about four miles above Terrene, with her machinery disabled. The details of the image are not known. James H. Rees's new boat for the Cincin nati and New Orleans trade will be 300 feet long, 43 feet beam, 41 feet floor, 8 feet hold, new engines 27 inches in diameter, 10 feet stroke, five steel boilers 46 inches in diamer, 6 flues, and wheel 16 feet. The General Bernard is down from St. Louis, with another big load of government rations, together with a lot of private con-ributions from citizens of St. Louis. She listributed some between Cairo and Memphis, and will leave this morning for points

pelow, perhaps as far as Vicksburg. About 00,000 rations will be left here for Missisppi and Tennessee sufferers. The old stereotyped expressions 'will de-part," "will leave," "will sail," etc., hitherto used in announcing the movements of steamers, won't apply when the new Anchor-Line packet City of Cairo goes into commis-sion. The one expression "will fly" can only convey the idea of what's going to happen when her propellers begin to disturb the bosom of Big Muddy. There was but one man aboard of ther who enjoyed the run from Cairo to St. Louis, and he was bald headed—all the others became so before reaching St. Louis. She's a bird of passage, she is, and don't you permit the truth of that assertion to become obliterated from the tablets of your memory.

Louisville Courier-Journal: "The unforte nate disaster to the ill-fated Golden City, at Memphis, is the first serious accident of the kind which has taken place upon our Southern or Western rivers for fifteen or twenty years, and, when we take into consideration the serious nature of the accident, the time nd place, the burning and sinking of the uge vessel, the loss of life was comparatively nall. It was a miracle that even a soul on pard escaped to tell the tale. In the mean-me we would call attention to the fact that,

ing the past year or two, there have been no less than twenty accidents upon railroads in this country, attended by greater loss of life and property than the Golden City dis-aster. So far as loss of life and property is concerned, there have been more serious cidents upon the railroads in this countr ore people killed and crippled, more prop erty destroyed in the past eighteen months, than has been on all the steamboats in the West and South in the past twenty years, and the reason there is no 'howl' goes up about an accident upon a railroad is simply ecause they are so common that the people re not surprised when they hear of one like they would be of a steamboat disaster, which are so uncommon of late years. Give the steamboats a chance. Railroads car ake care of themselves."
